A REMEDY FOR THE  
Effects of Tobacco.

THE excessive use of tobacco, especially by young men is always injurious and undoubtedly shortens life materially. Mr. Ed. C. Elsen, compositor on the Contra Costa News, Martinez, Cal., writes: "I have used Dr. Miles' Restorative Nervine and received much benefit from it. I was troubled with nervousness, dizzy spells and sleeplessness, caused by the use of tobacco and stimulants. I took Dr. Miles' Nervine with marvelous good results, allaying the dizziness, quieting the nerves, and enabling me to sleep and rest, proving in my case a very beneficial remedy." Dr. Miles' Restorative Nervine is especially adapted to restoring the nervous system to its normal condition under such circumstances. It soothes, heals and strengthens.

Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on diseases of the heart and nerves free. Address: DR. MILES MEDICAL CO., Elkhart, Ind.

## THE RECENT OUTBREAKS

Brought the Administration to a Sudden Realization of the State of Affairs in the Cuban Capital—Senator Turpie Denounces the Nicaragua Canal Bill.

Washington, Dec. 14.—The Brooklyn, Texas, Costine and Resolute have been ordered to Havana.

While there is not the faintest desire to convey a threat in the dispatch of these warships to Havana, it may be noted that when they lie within the harbor they will hold the town in perfect subjection. It is surmised that the suggestion came from Admiral Sampson, who is now in one of the suburbs of Havana, as a result of the unfortunate eruption at the Hotel Inglaterra.

At any rate the event brought the authorities to a sudden realization of the exact state of affairs in Havana, and the imminent danger of another such outbreak, which perhaps might run into the proportions of riot and cost many innocent lives.

With only a small force of American soldiers in Havana, since and those removed at such a distance from the city as to make it difficult of access in time to be of service to the American element in the city, now swollen to large proportions by the advent of many hundred commercial men and others seeking opportunities for employment, the necessity for some protection was apparent.

To increase the number of soldiers materially is not easy in view of the difficulty of transporting them, as well as providing for them when they reach Cuba, but the navy's motto now is always ready and it was decided to have the ships named to go to Havana to form a formidable bulwark against any anarchic outbreaks that might occur before the completion of the American occupation of the city.

The Texas is a full-fledged armored and might stand a deal of pounding even from the heaviest fortifications; the Brooklyn, with her protective system, can be rated as even better than the New York of the same type; the Costine is an efficient though small gunboat, and the Resolute is transformed merchantman with a battery large enough to make her formidable.

FIFTY-FIFTH CONGRESS

Nicaragua Canal Debate—House Passes an Appropriation Bill.

Washington, Dec. 14.—Time in the senate yesterday was largely consumed in discussion of the Nicaragua canal bill.

Mr. Turpie made the principal speech in opposition to the bill, attacking it on the ground that it is in the interest of the Maritime company, which he characterized as a fraud and bankrupt. He moved a postponement of the matter until after the holiday recess. Mr. Morgan defended the bill and the Maritime company and opposed the motion to postpone. Messrs. Berry and Rawlins both offered amendments materially affecting the bill.

Previous to the proceedings upon the canal bill Mr. Morrill made an address in support of the bill authorizing the purchase of a site for a supreme court building and this and several other bills were passed.

In the house the District of Columbia appropriation bill was passed without a single amendment. The bill carries \$6,359,950, which is \$176,000 less than was carried by the last bill and \$2,871,857 less than the estimates. The house

also passed the senate bill to amend the laws relating to seamen. All the amendments were rejected.

AUTONOMIST GOVERNMENT

Of Cuba Will Not Be Allowed to Dispose of Valuable Franchises.

Washington, Dec. 14.—It appears that the autonomist government of Cuba, established about one year ago, is making a strenuous effort to dispose of a number of valuable franchises and concessions before the advent of the military government of the United States. These franchises and concessions include the right to construct and operate the Central railroad line of the island including 11 branches, and also a network of electric tramways for Havana. The president has issued instructions to General Wade to immediately inform the Spanish autonomist government that the United States strongly disapproves of the proposed disposition of the concessions and franchises. In case this hint is not sufficient General Wade's instructions are of a nature to meet every contingency. He is ordered to put a stop to these proceedings without any limitations on his authority in the province. If necessary, there is no doubt that the principals in the scheme would be promptly arrested and imprisoned.

Congressman Bailey Objects.

Washington, Dec. 14.—Representative Bailey of Texas has decided to raise the question of right of Major General Wheeler to participate in the proceedings of the house should he attempt to exercise the privilege of a member. He will also raise the question as against either of the three other members of the house who entered the service of the United States during the war with Spain, Messrs. Robbins (Rep., Pa.); Colson (Rep., Ky.), and Campbell (Dem., Ill.).

AMERICAN UNIVERSITY

Trustees Adopt a Plan for Raising an Endowment Fund.

Washington, Dec. 14.—At the semi-annual meeting of the trustees of the American University held here yesterday, the board adopted plans proposed by Bishop McCabe for the organization of a ministerial alliance to consist of 1,000 preachers, each to secure \$1,000—\$1,000,000 in all—for an endowment fund, and also for a woman's guild to raise the same amount—making \$2,000,000 for endowment. The initial steps towards the organization of the alliance were taken by the election of Bishop Charles H. Fowler of Buffalo, president and Bishop McCabe, secretary. C. C. Glover pledged \$1,000 for the alliance, payable Jan. 1. Subscriptions to the alliance already have been made of \$35,000.

For the erection of the Pennsylvania hall of administration \$50,000 also has been pledged. Dr. W. L. Davidson was elected field secretary, to have in charge the raising of funds for the erection of the Ohio college of government building.

Assassin of Ex-Senator Wall of Illinois Under Arrest.

Spokane, Wash., Dec. 14.—A prisoner in the county jail awaiting trial on a charge of burglary, and who is also accused of having shot ex-Alderman Davidson while in the act of highway robbery committed in this city a month ago, has been positively identified as being Otto Mattias, a coal miner, wanted at Staunton, Ill., for the murder of H. W. Wall, a wealthy citizen and ex-state senator, on Aug. 16 last. For this crime a reward of \$2,000 is offered for Mattias' arrest. The prisoner, who gives his name as Fred Wood, has been identified by Dr. P. A. Hoxsey of this city, who was in Staunton when the crime was committed, and who knows the prisoner.

Now a Free Man.

Omaha, Dec. 14.—Albert Dickerson of Atlantic, Ia., is a free man, after having served a term of four years in the penitentiary for fraudulent banking in connection with the Cass County bank of Atlantic. President Yetser of the bank

When a Japanese girl marries, she blacks her teeth thus to a great extent marring and spoiling her beauty. American husbands would not dream of such barbarism, but on the contrary, want their wives to remain beautiful and attractive just as long as possible. In fact, every woman owes it to herself and society to preserve her beauty, attractiveness and amiability to the very end.

Thousands of women fall of this for one great prevalent reason. While they resort to every device to preserve their beauty of complexion by external applications and possibly take the best care of their general health, they are too frequently utterly neglectful of their health in a special womanly way. No woman can remain beautiful, attractive or amiable, who suffers from weakness and disease of the delicate and important feminine organism. A woman who suffers in this way will lose her clearness of complexion, her eyes will become dull, worry and pain will mark her face with wrinkles and she will become nervous, sickly, fretful and despondent. There is a sovereign remedy for all troubles of this description. It is Dr. Pierce's Favorite Prescription.

"My illness was caused by lack of medical attention during childbirth. It lasted for a period of three years, during which my suffering was almost indescribable," writes Mrs. Edith Petty, of Texanah, Cherokee Nat. Ind. Ter. "Owing to the injuries received—rupture, internal displacement, etc., I became a physical wreck. I was in a constant state of pain and nervous collapse. I became so nervous I feared insanity. My heart was affected and I had spells of palpitation and smothering. Was reduced in strength and could take no solid food. The doctors told me that recovery was impossible without a surgical operation. My monthly periods ceased entirely. My mother bought a bottle of Dr. Pierce's Favorite Prescription. I took twelve bottles. Thanks to an All-wise Providence and Doctor Pierce's medicines, the symptoms have all disappeared. I can now do a hard day's work, eat anything and everything I wish. I regard my recovery as permanent, for it is nearly two years since I stopped taking Dr. Pierce's medicine."

The circumstances of the discovery attracted attention at the time of the American and British Societies for Psychical Research. Mr. Elliott did not see the mine for more than four years after he dreamed about it. He recently brought back samples of the ore with him. It was very rich, some of it assaying \$50,000 to the ton.

Printing Contract Awarded.

Tuesday the county commissioners let the contract for county printing to W. B. Burford & Co., of Indianapolis. There were a half dozen bidders present, all of whom were anxious, but not sure winners. In fact some of them remarked beforehand that they would not be in it in the windup as Burford was the only man who stood any show to get a stationery contract in Jackson county. One of the bidders remarked while the commissioners were deliberating that he was confident that the contract would be awarded to Burford according to custom. Another said that he was ready to wager that the contract would not be awarded to the lowest bidder. Similar remarks were made by others. But now since the contract goes to Burford again the people would be pleased to know the stipulations of this contract and in what respects his bid was preferable to the others. What are the taxpayers to pay for stationery and printing the coming year?

## FIRST COLORED WOMAN To Receive a Pension For Services as Nurse During the Rebellion.

New Albany, Ind., Dec. 14.—"Aunt" Lucy Nichols of this city, who joined the Twenty-third Indiana at Bolivar, Tenn., in July, 1863, and followed it in all its campaigns until mustered out, in 1865, was notified yesterday by Congressman Zenor that a special bill, granting her a pension of \$12 a month, had been passed by the senate and only awaited the president's signature to become a law. She is said to be the first colored woman to receive a pension for services as nurse and cook. She is an honorary member of Sanderson Post, G. A. ## Want Their Discharges.

Wabash, Ind., Dec. 14.—Word from members of the One Hundred and Sixtieth regiment, now at Camp Davis, Columbus, Ga., by relatives in this city indicate an impatience on the part of most of the regiment to be mustered out. The boys say they are tired of playing soldier, though they would have been delighted to take part in an active campaign. Since that is now impossible, they are importuning their friends to urge Major Steele to labor earnestly for their discharge. Most of them are strenuously opposed to assignment to duty in Cuba.

South Bend, Ind., Dec. 14.—Efforts are being made to establish a Danish church in this city. This, with two Swedish churches, and three Polish, one German, one Belgian, one Hungarian, one Irish, one Irish and French Catholic churches, in addition to many English and German Protestant and three colored churches, affords a decidedly cosmopolitan aspect to religious circles in South Bend.

### Deafness Cannot Be Cured

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars; free.

**Two Pounded Questions Answered.**  
What is the use of making articles better than your competitor if you can not get a better price for it?  
Ans.—As there is no difference in the price the public will buy only the better so that while our profits may be smaller on a single sale they will be much greater in the aggregate.  
How can you get the public to know you make it?  
If both articles are brought prominently before the public both are certain to be tried and the public will very quickly pass judgement on them and use only the better one.
